### GP ROTATIONS AVAILABLE IN HEALTH EDUCATION WESSEX 2020/21

Total number of GP Training Programmes available: 162 GP ST1

Please note that the number of posts available and the rotations listed below are indicative, and subject to change for a number of reasons<sup>1</sup>. The Health Education England - Wessex has a duty of care to patients that means that sometimes it is necessary to change rotations even after they have been agreed in order to ensure patient safety. Although usually undertaken in this format, the need to meet the educational needs of all our trainees, maximise the number of doctors in training and fulfil our commitment to patients means that the following posts are not always undertaken in this combination or this order.

All of our programmes contain 18 months of hospital posts and 6 months in general practice during the ST1 and ST2 years. The ST3 year is spent in general practice.
