	L. Suitability to commence / continue training in paediatric cardiology	0 – 4	1 point = Barely suitable 2 points = Quite suitable 3 points = Well-suited 4 points = Highly-suited
Total		0 – 50	

⁺To award points it is essential an achievement **clearly constitutes a higher award** and is not a primary medical degree, a part thereof, or an intercalated qualification

*These fields are marked **cumulatively**, rather than awarding a mark corresponding to the highest achievement only. For example, a candidate holding both a diploma and a PhD scores 4 not 3, and a candidate providing evidence of both informal and formal teaching appointments scores 3 not 2
