

## Endoscopy: JETS Workforce Funding Grant Expression of Interest 2023/24

***If you are due to report on the impact of the JETS Workforce Grant from 22/23, the impact report will need to be completed before any other expression of interests for further funding are considered.***

### Overview

By October 2024 JETS Workforce training and competencies will become mandatory for the Endoscopy Workforce. There will be an expectation that 10% of the workforce should have completed Level 1 (ENDO1 eLfH and ENDO1 face to face/remote training course) on Endoscopy units that are a part of the JAG standard for services and assessed via GRS and JAG Accreditation.

The South East Endoscopy Training Academy is looking to support the implementation of JETS Workforce by funding additional training grants. We first rolled out this funding offer in 2022/2023 which has enabled us to support 215 members of the Endoscopy Workforce to undertake this training. For 2023/2024 we would like to provide further training grants across the South East.

### What is JETS Workforce?

- JAG eLearning programme which provides the endoscopy workforce with a **structured** approach to **training, assessment, and appraisals**.
- **JETS-Workforce competency framework** is available as an online ePortfolio, linked to a range of eLfH modules and online training courses.
- JETS Workforce is made up of three different levels, **ENDO1, ENDO2 & ENDO3**. (ENDO1 Foundation & Decontamination, ENDO2- Advanced Endoscopy, ENDO3- Leadership & Management and Assessing Clinical Practice).
- All members of the Endoscopy Workforce are appropriate to complete ENDO1. The necessity of ENDO2 and ENDO3 competencies will depend on the individual's experience.

### What are the benefits of using JETS- Workforce?

- JETS Workforce will become mandatory by October 2024 with an expectation to have 10% of the workforce completing Level 1 (ENDO1 eLfH, face to face/ remote course and final sign off)
- The opportunity for the endoscopy workforce to access high quality standardized training delivered by experienced training faculty.
- Units benefit from consistency in training & staff development, reducing learning gaps and increasing staff rotation, rota skills-mix and service capacity needs.
- Increase staff professional satisfaction and retention through focused time for CPD, skills improvements and self-development.

### **The Funding Offer: ENDO1 +**

This funding offer is aimed at all members of the Endoscopy Workforce who have not yet begun training and competency through JETS Workforce.

#### **A funding grant of £300 per trainee to allow Endoscopy Services to provide protected time for individuals to undertake the following:**

- Enrol individuals to learn how to utilise JETS-Workforce, supported by JAG.
- ENDO1 eLfH
- ENDO1 course (Face to face or remote workshop Fee to JAG of £30)
- ENDO1 in house training and competence assessment
- ENDO1 witness statements
- ENDO1 reflection and final sign-off.
- ENDO2 eLfH (As appropriate)
- ENDO3 eLfH (As appropriate)

### **The Funding Offer: ENDO3**

This funding offer is aimed at those with a passion for Leadership & Management and Assessing Clinical Practice. Please note that ENDO1 eLfH and course must be completed prior to initiating ENDO3.

#### **A funding grant of £150 per trainee to allow Endoscopy services to provide protected time for individuals to undertake the following:**

- ENDO3 eLfH
- ENDO3 course (Face to face workshop Fee to JAG of £115)
- ENDO3 in house training and competence assessment
- ENDO3 witness statements
- ENDO3 reflection and final sign-off.
