

South East Imaging Training Academy (SE ITA)

Image Sharing Platform for Training and Education

SE ITA's aim is to increase the number of learners... with high quality & enhanced training experience.

We are therefore delighted to announce the procurement of an Image Sharing Platform supplied by DetectedX.

Available for:

All NHS Imaging workforce in the South East.

Providing:

- A platform to create, design & deliver imaging education
- World class medical imaging & radiology education
- Access to self-assessment modules, suite of lectures, case-based quizzes & much more!

Phase 1: Web browser platform available now

Phase 2: Trust PACS system integration for direct upload.

An online learning imaging platform designed for clinical educators & learners.
