

# Enhancing Training: AI for Learners and Educators

From Disruption to Powerful Ally

Dr Jonathan Rial  
GP Educator - Associate Dean ARCP

# Today's Mission: Wear Two Hats

## 1. The Educator Hat

- How can I reduce my workload?
- How can I improve my materials?

## 2. The Learner Hat

- How will Residents use this to learn?
- How might they use it to save time?

THE RULE: Phones out! We are experimenting today.

# Your AI Toolkit for Today

Gemini (Generalist)

ChatGPT (Alternative)

NotebookLM  
(Researcher)

Gemini

Hi Jon

Where should we start?

Create image

Create a video

Write anything

Help me learn

Ask Gemini

# Activity 1: The 'Instant Actor'

GOAL: Practice difficult conversations safely.

THE PROMPT:

"Act as a [Specific Patient] who is reluctant to start [Treatment]. I am your doctor. Respond realistically but keep answers short. Start by saying you are worried about side effects."

# STOP

"Stop. Give me feedback on my empathy and explanation skills."

“Can you be a bit harder on me”

# Activity 2: The Researcher (NotebookLM)

THE PROBLEM: General AI 'hallucinates' (guesses).

THE SOLUTION: NotebookLM uses ONLY your documents.

DEMO

# The Specialist: Improval

## WHY SPECIFIC TOOLS?

- Secure, compliant, and specific to medical training.

## IMPROVAL RECORD:

- Capture consultations securely (App).

## IMPROVAL REFLECT:

- Structured learning diary & AI analysis.

# Download the Tools

Improval Record

Improval Reflect

# Future-Proof Your Training

## SUMMARY:

- Gemini/ChatGPT: For drafting, ideation & roleplay.
- NotebookLM: For evidence, policies & summaries.
- Improval: For assessment, supervision & portfolios.

## THE CHALLENGE:

Pick ONE tool and use it for ONE task this week.
